

CLPL® TECHNOLOGY

/

Continuous Low Pressure Laminate is the exclusive technology by Lamitex that enhances the materiality of decors, giving our surfaces unparalleled visual and tactile effects.

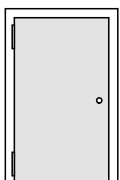

SYNCHRONIZED PORE

/

Synchronized pore technology
recreates the grain, contrasts and
tactile sensations of different wood
surfaces with total realism.

PRODUCT APPLICATIONS

/

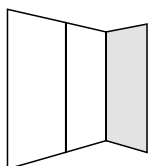

DOORS

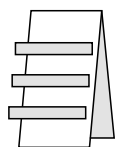

CEILINGS

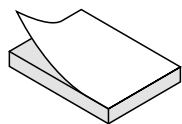

BEDROOMS

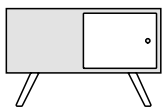

WALL PANELINGS

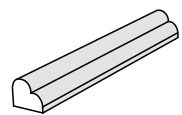

SHOPS

SUSTAINABLE AND ECOLOGIC

The mark of
responsible forestry

Lamitex products have always been free from polluting agents such as phenols, PVC or melamine, with no formaldehyde added during the production process. This environmental philosophy has always been a hallmark of the company.

PLASTIC
FREE

The choice of paper as a raw material and excluding plastic, together with the aesthetic result and flexibility of use, makes CLPL® perfect for creating a coordinated and sustainable Total Look.

3D EMBOSSING /

This exclusive process allows an optional CLPL® decorative embossing to be applied, highlighting the texture and depth of the play on light, to achieve incredible realism. There are 8 different embossing available on request.
